ANTHONY PREPARES IMPROVING SCHOOL

Two New Teachers Are Employed—Mosquitoes Spread Disease.

Anthony, N. M., Aug. 1.—The public school will open here the first week in September with Ezra Stemple from Ravenel, N. M., as principal, and Mrs. Larson, from Deming, as assistant. Both teachers are territorial training school graduates.

The last school census according to chairman of the board Halbrook showed 180 children of school age in the district. It is a well known fact that numerous homesteaders have settled elsewhere simply on account of the lack of good schools and that a number of families have moved away for no other reason than to get their children in better schools. Consequently, says chairman Halbrook, the schools will be placed on a graded basis at once and provisions made for a high school as soon as there is a demand for one under the graded system.

To this end an assessment of five miles was secured and the experienced teachers engaged by the board. The growing communities up and down the valley are demanding these progressive measures and J. Volbrook's work in this case seems to be generally appreciated.

Chairman Nietzsche has returned from Las Cruces, where he went to attend a special meeting of the board of county commissioners. Rev. W. A. Nichols, field worker for the "Children's Home Society" of Albuquerque, made his annual visit to this part of the valley last week. Dr. Nichols showed a number of photographs of some fine specimens of "Young America" rescued, and it is known that local residents contributed \$50 to the cause. Joshua Reynolds, of El Paso, is president of the society, and Mrs. Henry Van Valkenburg, formerly a Mesilla valley girl, is one of the board of directors. Dr. Chas. E. Lukens, of Albuquerque, is superintendent.

The unusual rainy weather here during the summer and the consequent fly and mosquito plague, resulted in a heavy mortality among the native children. Under these and other adverse conditions the mother and attending physicians have been almost helpless in cases of measles and other contagious diseases.

United States senator Cockerell, of the boundary commission, and territorial engineer Mills have arrived here from Albuquerque. Senator Cockerell unexpectedly found an old friend here, J. R. Livest, manager of the Valley Mercantile and Lumber company.

J. L. Campbell, chief of the southwestern engineering department, has returned from Cloudcroft, where he has been inspecting the sewer system on the Cloudcroft reservation.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for Catarrh. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ARE YOU FREE FROM—

Headaches, Colds, Indigestion, Pains, Constipation, Sour Stomach, Dizziness? If you are not, the most effective, prompt and pleasant method of getting rid of them is to take, now and then, a desertspoonful of the ever refreshing and truly beneficial laxative remedy—Syrup of Figs and Elixir of Senna. It is well known throughout the world as the best of family laxative remedies, because it acts so gently and strengthens naturally without irritating the system in any way.

To get its beneficial effects it is always necessary to buy the genuine, manufactured by the California Fig Syrup Co., bearing the name of the Company, plainly printed on the front of every package.

CHICAGOAN BUYS LAND AT DEMING

Also Takes Up Government Claim While in That City.

Deming, N. M., Aug. 1.—W. H. McDonough, who had been investigating Deming, has returned to his home in Chicago. He filed on 160 acres of government land, purchased 160 acres of deeded land at \$25 per acre, and two town lots near the business section at \$500 each. He says he has traveled through 17 states looking for a location.

E. B. Hackley, of Oklahoma City, is in the city looking for a location.

Chicago's Smoke Nuisance.
The officials in charge of the department of smoke inspection of the city of Chicago says in a report to the mayor that it costs the citizens of Chicago \$8 per capita for laundering and cleaning made necessary by the smoke nuisance. One-half the smoke comes from the railway locomotives, and as there is no device for diminishing the amount of smoke from a steam locomotive no solution of the problem is possible until the railroads are electrified.

The Lesser Evil.
"You talked constantly through the opera," said one young woman.
"Yes," replied the other. "I disliked to do it. But it was the only way to keep father from going to sleep in full view of the audience."
